Important Information: Hepatitis B vaccination information (New Lifeguards Only)

The New Jersey department of health in accord with PEOSHA blood borne pathogens standard regulations (29 CFR 1910.1030) requires Hepatitis B vaccinations (HBV) to be offered to public employees who may have contact with blood or potentially infectious materials because of their work. LBTBP will provide information on HBV vaccination addressing its safety, benefits, efficacy, methods of administration, and availability. The three-vaccine HBV series will be made available at no cost to employees who have the potential for occupational exposure to blood or other potentially infectious materials unless written documentation is shown for one of the following:

- The employee has previously received the series;
- Antibody testing reveals that the employee is immune;
- Medical reasons prevent taking the vaccination; or
- The employee chooses not to participate.

All employees are strongly encouraged to receive the HBV series. However, if an employee chooses to decline HBV, then the employee must sign a statement to this effect. Documentation of refusal of the HBV will be kept at LBTBP headquarters with the employee's other records.

First year guards only: If you choose not to participate in the HBV program, the enclosed declination statement must be returned with your application.

To schedule Vaccination:

Vaccination appointments are available by contacting the LBI Health Department directly at (609) 492-1212 to schedule an appointment. There you will make arrangements for your second shot, which will be administered in August; your third shot will be administered in July, 2027. Don't forget: if you began the series last summer you must make an appointment to receive your third shot!

All vaccinations are given at the LBI Health Department, Ship Bottom.

Declination statement

Please check one:

I have already received the complete series of shots. A copy of my records is attached.

I understand that due to my occupational exposure to blood or other potential infectious materials I may be at the risk of acquiring Hepatitis B virus (HBV) infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine, at no charge to myself. However, I decline Hepatitis vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

First year guards: If you do not either sign the declination statement or receive the vaccinations, you will be unable to work as an ocean lifeguard for Long Beach Township.
